ASSOCIATED PRESS TELEGRAMS.

HAVAS AGENCY

Vienna, 12.

Advices from Belgrade bring news of an unimportant engagement between Servian and Bulgarian forces; both sides claim the victory.

London, 12.

The Directors of the Bank of England, to-day, fixed the official discount rate at 3 o/o.

Rome, 12—The Royal Decree appeared to-day convening parliament to ordinary sessions on the 25th inst.

Calcutta, 12.

It is stated here that King Theebaw, on being informed of the declaration of war by the Anglo-Indian Government, issued an edict ordering the extermination of any English subject found in his dominion. The English forces are pressing forward, and will soon cross the frontier.

PRESS TELEGRAMS

Washington 10th—Secretary Endicott has issued instructions to the military commanders stationed near those points where disturbances are most likely to break out, to carry out the Presidential decree for the expulsion of the Chinese residents. With reference to secretary Whitney's orders to send the men o'war Temesi and Galenato to the Isthmus of Panama, the *Star* states that this step is evidently taken to forestall an outbreak similar to that of last Spring, which would somewhat interfere with the crossing of the Isthmus and make this Goverment responsible for all damages. The same paper quotes the following words, interviewed by a naval officer: "We have not, as yet, been sent the bill for the Aspinwall damages but when it does come it will represent many millions, and Government will be obliged to accept the claims. We have guaranteed not to interfere with the crossing of the Isthmus, but previous to this promise, Aspinwall was burned, many valuable properties being thus destroyed and the owners will apply for, and must obtain a heavy indemnity."

Paris 10th—M. Blanc, in his speech, recommended the combination of the republican party and a learned policy based on the experience of former elections.

Comte de Mem has relinquished the idea of organizing a catholic party, as the Bishop of Soissons does not approve of such a step.

Regina N. W. (Canada)—The execution of Riel has been postponed to the 16th inst. The necessary preparations are being made, although the decrees have not yet arrived.

London 11th—A Cabinet Council was held to-day at the Premier's official residence to consider King Theebaw's reply to the ultimatum of the Indian Government. In view of the King's refusal to meet the demands of the English, it was decided to formally declare war, with the approval, now granted of the Queen, against Burmah.

The English army, 15,000 strong, continue their advance into the enemy's country. The first military operation on the programme will be the bombardment of Minola by a flotilla of war vessels.

The French Government and the Burmese Minister in Paris have notified foreign residents that they must immediately withdraw to British territory.

Advices from Madrid announce the rumor that Germany will not accept the Pope's decision in the Carolines' dispute.

Winnepeg 10th—It is probable that serious disturbances will break out if Riel's sentence be not carried out next Wednesday.

It is also feared that the palace of Archbishop Tache in San Bonifacio, will be wrecked if the execution be not effected, since this Prelate is accused of throwing his influence into the scale to save Riel. The greatest excitement prevails and an insurrection will probably break out, if Riel's sentence be commuted.

St. Paul (Min.) 11th—A commission of doctors have secretly examined Riel in Regina and found him insane. Neverthless preparations for the execution continue.

Montevideo 12th—The rumors of revolutionary movements are officially contradicted.

The Spanish editors assembled last night for a "cange de ideas" as to the best means of increasing the naval strength of the mother country.

No news of any importance; political circles quiet.

THE JUAREZ CELMAN PROGRAMME.

Dr. Celman's political programme is a very able paper and will, doubtless, be read with much interest by all. It is short, sharp, and to the point, removing many of the prejudices that existed in the public mind against him, and we can only say that if he is elected and sticks to his programme, the country will have good cause to rejoice at his nomination.

Hitherto, it was not usual for our presidential candidates to publish programmes, and possibly the example recently set by Mr. Gladstone may have had something to do with the paper before us. Dr. Celman binds himself by this document to a political line of conduct that meets the approval of all, and we see no dissolving principles or fanatical liberalism in a single line of his programme; on the contrary, he has the moral courage to announce that he will maintain the religion of the country and avoid those anti-religious struggles which disturb the progress of a nation, and weaken social ties.

The following is this remarkable state paper:—

I had the honor, Mr. President, to receive your note and the political programme of the National party, which has selected me as its candidate for the future Presidency.

The heavy responsibilities involved in so high an honor do not escape me, and I fully appreciate the serious and difficult duties by which I bind myself to my country in accepting this honor. To fulfil those duties would be an impossible task if I could not count on the patriotic aid of the National Party, in the event of my being raised to the Presidential chair by the majority of my fellow-citizens' votes.

Since the organization of the country in 1852, strengthened in '62 by the union of the 14 provinces, and for ever cemented by the capitalization of the city of Buenos Ayres, almost all the obstacles to the development of our National existence have been removed, and liberty and progress flourish in an immense territory, considerably increased by the conquests of civilization over the vast and extensive lands which had been accustomed to the wild sway of the savage Indian.

The obstacles of the past being removed, the task of the future President will be stripped of many difficulties. The country, therefore, is entitled to expect the greatest results from the future Government, not only in the material progress of the country, but in the institutions which protect our advancement and fertilize this progress. Liberty of suffrage is the basis of our present system of government, and this noble object of every citizen's ambition cannot and must not be the banner of any one party to the exclusion of others.

I shall make it one of my most religious duties and a high honor to co-operate in spreading and diffusing electoral liberty, in order that the various groups into which opinion divides itself, may take corresponding parts in the government of the country.

I fully comprehend the extent of the duties imposed on me by my party, and I am confident that I can always count on their able and patriotic assistance in the accomplishment of these duties.

To maintain national union, shall be the first object of my aspirations. In the programme drawn up by the National party I see this formula: "Liberty limited by order and law." I must say a few words to show in what manner I take its realization. The Government must strictly fulfil the duties imposed by the Constitution and its laws, and the citizens must never overstep the limits of their rights, because any advance of power is an act of despotism, and any violation of the limits imposed by rights, subversion.

Happily the laws are always at hand, and the Federal Justice, one of the highest powers of the State, is always ready to maintain Governors and governed within the limits of their duties.

I shall ever believe that peace and liberty constitute a great natural necessity. At present we are traversing a period of progress, of which we are justly proud; but our country, as I have remarked, is large and extensive and we need a more rapid and vigourous current of immigration. The development of our industries and our settlements will in time bring about this happy result. No country in the world is as rich and as fertile as ours. No country has cheaper and more productive lands, and nowhere can agriculture and cattle and sheepfarming flourish under more advantageous conditions. But we have yet to extend our means of communication and for this end we must stimulate private enterprise. With increased immigration, our immense, inexhaustible resources, economy, and upright administration as basis, our financial situation must improve soon. For my part, anything tending to produce this happy result will meet with my staunch support.

Our friendly relations with our neighbours and foreign countries are not likely to be disturbed and I shall direct all my energy and efforts to maintain peace, taking into account our national dignity and rights.

As the Constitution allows every citizen the benefits of liberty, the religious opinions of everyone must be respected, and the Church must not be persecuted. Everyone has a right to adore the Almighty according to his own conscience.

Religious struggles disturb the progress of a nation and weaken social ties. I shall, therefore, carefully avoid them and enforce respect for both Church and State.

With regard to other points of the political programme, I shall say nothing, as my assertions at present may only prove theoretical. The turn of events will best show the path to be followed, as promises may disappear in the presence of unforeseen circumstances. I solemnly declare, nevertheless, that if the votes of my fellow-citizens raise me to the highest diguity in the Republic, I shall spare no effort, I shall display all my energy, to attain the great object of my ambition—secure the happiness and own the esteem of my country.

I know the Argentine Nation is destined to be powerful, and to guide its progressive march I need the concurrence of all honorable and upright men.

The path before me is easy and sure and I shall never deviate from it, supported as I will be by the strong sense of duty, and the obedience and maintenance of the laws of the Constitution. I salute the President of the National Committee.

THE ANNUAL REGATTA OF THE B. A. R. C.

Well may the Committee of above mentioned flourishing Club congratulate themselves on the success of Wednesday's Regatta. Year by year this 'gala' day has steadily grown in importance, and of late our Porteño society have so strongly taken to this manly sport that to miss witnessing it would be a kind of dire calamity.

From early morning every train that started for the Tigre was, crowded with pleasure seekers. No more enticing attraction could be held out to them than the annual regatta on the peaceful Lujan, at one of the most picturesque and quaintly beautiful spots in or near this busy Capital city.

The day was warm and close, and seemed, indeed, to menace all with a thorough Argentine wetting, but even this dismal prospect deterred not the multitude. It was a grand gathering, truly, and the scene was gay. The place was all resplendent with banners and flags, and resounded with the joyous tumult of the careless throng, and the lively, if not entrancing, strains of that which is said to have power to soothe the uncultured breast—two brass bands.

Every available steamer and boat on the river was immediately whipped up, and the prices charged by the jolly watermen (very serious individuals here) will keep their pot boiling for some time to come. The many owners of the numerous cottages by the river made it a point to have their special town friends at the festive board, and lunches reigned supreme along the river's banks.

Ths ladies were, without a doubt, the attraction of the day. Boat-racing, of course, has its charm, but it would be slow work, indeed, for most of us were not the the "Creator's noblest work" present, to throw the proper animation into it, and which only they can do. Health, wealth and beauty sat side by side. The costumes were gorgeous, and even the greatest cynic, standing amongst these fair ones, must have admitted that, after all, this world is not half so bad as it is painted.

The rowing was very creditable, indeed, and the strong and long pull won the day.

Our visitors from the other side of the Jordan were unlucky, and were vanquished in the two events they entered for. They pulled a very even stroke, but too short. In choppy waters, no doubt, it has its advantages, and, we feel confident, that four lengths' difference would not have been the verdict had Montevideo harbour been the course in place of the River Lujan. Our own men pulled well, were in good form, and won the race just as they pleased.

The Single-Sculling Challenge Cup was won by T. Van Houten, and Messrs. Parry and Co.'s Silver Cup, by Messrs. W. F. Van Houten, F. Spott, R. Guimenez and J. T. Van Houten.

The following is the programme:—

1st Race.

Deciding Heat
R. Anderson 1

In the deciding heat of this race, which would have been one of the best contested races of the day, it had rather a comical finish, as R. M. Elizalde, through bad steering, occupied R. Anderson's course and ran foul of him. They caught hold of their respective boats and would not let go; but the Judge's steamer arriving settled the point by deciding the race as won by R. Anderson.

Bow—R M Elizalde
Stroke—T Campbell
Cox—A Mendez Frias.
Station 3—Blue Flag.
Bow—T Spott

The white flag was first at the winning post; the blue flag being about one-half boat length behind, this was the best competed race of the day. The Montevidean crew did not come to the post.

Won by a few yards, after a splendidly-contested race.

Thus terminated the most successful regatta we have yet had; and, let us hope, that next year measures will be taken to allow no steamer, except the Judge's, on the course. They were a frightful nuisance.

The Montevidean crew were entertained in the evening by the B.A.R.C, at a banquet given at the Felipe. Over 40 members were present. Mr. R. Bridgett, presided. Speeches were the order of the night.

Mr. D. W. Fraser responded on behalf of the Montevidean Club.

P. A. M,

The Orion's Mails.

London, October 16.

Our correspondent in Rome learns that the first memorandum of the Ambassadors at Constantinople was disapproved of by the Powers, and that a second document has been prepared, to which no objections have been raised. According to a Reuter despatch, the Ambassadors conferred on Tuesday, and yesterday intimated to the Porte that they had agreed to condemn the violation of the Berlin Treaty by the Bulgarians and Roumeliotes, and to express their appreciation of the Porte's pacific attitude.

It is intimated by our Vienna correspondent that Servia considers she has a *casus belli* against Bulgaria already in hand, Bulgarian plots to overthrow King Milan having reached the Servian Government's cognisance. A Reuter's telegram from Constantinople lays stress on the probability of a Turkish advance into Eastern Roumelia and Bulgaria, and states that the Sultan's military advisers counsel his Majesty to make terms with Servia, at the expense of Bulgaria. A powerful Ottoman army is now available for the occupation of Eastern Roumelia and the Balkans. The Greek Minister at Stamboul has given explanations to the Porte concerning the Hellenic armaments.

From Calcutta we learn that the King of Burmah has sent an insolent reply to the Chief Commissioner of British Burmah, refusing to make any concession, and declining to discuss the question with the Indian Government.

Yesterday's *Liberal* of Madrid has reason to believe that the Spanish Government replied on Tuesday to the Berlin Note, accepting Papal mediation in relation to the Carolines question.

Mr. Chamberlain addressed a large Liberal meeting, mostly composed of agriculturists, at Trowbridge last night, and replied to some of Lord Salisbury's criticisms on his proposals respecting the land, education, and other matters. The meeting was very enthusiastic.

Colonel Stanley, M.P., in a speech at Burley last night, said there appeared to be a desire on the part of all the Great Powers that the Eastern Roumelia incident should be brought to a peaceful issue in the interest of Europe, without the shedding of blood or drawing of the sword.

Sir Henry James, in the course of a speech at Bury yesterday, in which he explained his views on land law reform, incidentally mentioned that the exclusion of shop assistants from the franchise was not an accident but a necessity. If a vote were given to all men in service, the question of manhood suffrage would be involved.

Speaking at Glasgow last night Mr. Goschen discussed the question of taxation, and advocated a complete readjustment, so as to place land in the same position in regard to public burdens as personal or movable property.

Under the influence of the disquieting news from Eastern Europe, the Stock Markets declined yesterday morning, but closed at a partial recovery. Excepting Greek and Turkish Tribute, which fell 1 to 3 per cent., the adverse movement in Foreign bonds on the day was not important. Consols receded ⅛, while some of the English railways improved. A decided rise also occurred in American, Canadian, and Mexican lines. On balance a small amount of gold was withdrawn from the Bank for export.

Dublin, Oct. 16.

The following communication, which has been received by Archbishop Croke from the Most Rev. Dr. O'Farrell, Bishop of Trenton, United States of America, is of a different character:—"The priests of my diocese, in conference assembled this day, unanimously request me to offer the bishops and priests of Ireland and the Irish Parliamentary party their entire sympathy and best wishes for the success of the national cause."

Mrs Morgan John O'Connell continues to defend herself with spirit against detractors and to maintain her rights. In a letter to the *Freeman's Journal* she says,—"Your issue of Saturday contained a report on my affairs which, to use a very mild word, was full of wrong statements. Father Vaughan on his visits to Ballylean in his admirable and successful efforts to preserve Christian charity among us all was not accompanied by all the 75 tenants. Several of them on the townland of Bonloughera had seen me before. I had previously received a deputation from them, and visit from their parish priest, Father Gleeson. They had agreed, without wrangling, to the 15 per cent. offered, and confidently expected the usual help for the cases of actual poverty among them. Not a single writ was served on the townland. From first to last six writs were issued. There was an error of name on one, so five remained available. Messrs. Synan, Molony, and John Crowe suffered their cattle to be driven and actioned and bought them in. Messrs. O'Dea's and Martin Cleary's cattle were not driven. When the sheriff arrived the former's stock, like young Lochinvar's bride, were 'o'er the border and awa.' Mr. Martin Cleary's cattle were not driven or looked for. The interest in the lands of these two tenants and Mr. Maurice Walsh were advertised. For some reason best known to himself Mr. M. Walsh, though having a bundle of notes about him, did not settle, and bought in his land at the sheriff's sale. I accepted a half-year's rent and sheriff's costs, from Messrs. Cleary and O'Dea, and am endeavouring to get them and Messrs. Synan, Molony, and John Crowe allowed lawyers' costs by Court of Chancery. Fifteen per cent. on first half-year and 4s, on second half-year was the order of Court, which was steadily adhered to all through. No man got 30 per cent on a year's rent." She desired to put on record her obligation to Father Vaughan, P.P., Gleeson, P.P., and Kelly, C.C., for their quiet, unobtrusive, and friendly mediation, for she is no longer boycotted, and her old gardener, she says, is no longer refused the snuff which is the chief solace of his more than fourscore years.

Now comes another case from a Spanish colony, which would appear to show a specially rancorous disposition on the part of the Spanish authorities with regard to England. I have received the following letter from Havannah, which will speak for itself. I will only add that the particulars referred to therein have not come to hand; but this is the less important, as sufficient is said to make the case perfectly clear, and the English Government must by this time be in possession of all the details. Lord Salisbury cannot fail to deal very severely with senseless outrages of this description, unless England's good name and the security of her representatives and subjects in Spain, or in the Spanish possessions, are henceforth to be in constant peril at the hands of, to say the least, indiscreet and bullying agents of the Spanish Government. The letter is as follows:—

"Calle O'Reilly, Havannah.

"My dear Sir,—I send you by this mail full particulars of the great scandal which we have had here recently—the seizure of the British Consular flag, telegraph code, safe, stamp, &c., by the Spanish authorities. Our Consul, Mr. Crowe, a very amiable person, and a friend of mine, is naturally very indignant, and has referred the entire matter to the Government at home. Nevertheless, if you have an opportunity to notice this in the *Times*, you will do a public service to entire British colony in Havannah.

"We all heartily sympathize with Mr. Crowe, and rely upon the English Government acting energetically; but publicity should help our case."

Madrid, Oct. 14.

The journal *El Correo* to-night mentions a rumour, according to which an incident somewhat resembling the recent affair at the British Legation in Madrid has occurred at the British Consulate in one of the Spanish colonies. The journal gives no further details, but adds that, should the report be true, it presumes that England has made representations to the Spanish Goverment on the subject.

SPAIN AND GERMANY.

Madrid, Oct. 15.

Until the German and Spanish detailed accounts are received by the next mail of what really occurred at Yap, we are likely to be entertained with rumours more or less unfounded as to negotiations here, in Berlin, and in Rome—negotiations which, if the Spanish Government would only act prudently and straightforwardly, might be brought rapidly to a satisfactory conclusion. Everybody here is thoroughly sick of the halting epilogue to the miserable theatrical business which has characterized this Caroline Islands affair. The Spaniards are now only anxious to bury it.

In a letter which I have received from Manila, dated August 27 last, and coming from a German source, the highest praise is given to the Governor of the island of Palawan and to the Spanish colony for the kindness extended to the captain and crew of the Hamburg barque Billy, wrecked there recently on the reefs. The Governor lodged them in his own house and supplied in the most generous manner all their wants.

AN EXTRA IMPRESSION OF LA PLATA.

CONVERSION OF THE SCEPTICS.

(*By Frank E. Thicke.*)

Whatever sceptic could enquire for
For every why he had a wherefore.
HUDIBRAS.

Some years ago I was contributing descriptive articles on a professional subject to an English newspaper, somewhat after the style of those you have so courteously allowed me to publish in the STANDARD on La Plata. Having become, I suppose, somewhat "intoxicated with the exuberance of my own verbosity," I overshot the mark and wrote too much for the patience at least of one of my readers; for one day I received an anonymous post-card on which was written:

You write at ease to shew your breeding,
But easy writing's curst hard reading.

Now, but for your paragraph in yesterday's edition of your paper, I had not intended to address you for some considerable time, for fear I should bring another reproof upon me for boring both you and your subscribers. Believe me I am grateful for your encouragement, as it gives me the opportunity of telling you of the conversion of several people who have, until recently, denounced La Plata in strong language, and called it all the names they could think of without, as usual, ever once having seen it, or at least only in its initial state, some two years ago.

"Perseverance keeps honor bright" they say; so I am disposed to think that the characters of several of us in La Plata, who have strenuously upheld the city and the Port, and have endeavoured to extol its merits, not unduly, all through the piece, will not be any longer placed in jeopardy; for it appears that our efforts are beginning to meet with some sort of appreciation and reward, and our truthfulness is at last being acknowledged. My own particular converts must, of course, be nameless, though I may tell you that they comprise both sexes and come from all parts of the Republic.

"Place aux Dames." A lady from the other side of Buenos Ayres had never been to La Plata, because she had been told and believed that it was a wretched hole, consisting mostly of wooden houses—that the country round was very flat and the place generally was uninteresting. She further went out of her way to denounce it, as only a woman can denounce *anything* if she tries. Well, it chanced that some of her neighbours and intimate friends came to reside in La Plata, and in due course communicated their "impressions to the sceptical fair one who, with difficulty, at last was induced to pay her friends a visit. After a short sojourn she returned to her home inebriated with delight, full of praises of the Park, the public buildings, the width of the streets and boulevards, etc., and expressed her wonderment that more people did not come from Flores and Belgrano to live altogether at La Plata, for (she added) "the place is far superior to any suburb of Buenos Ayres."

When I first saw this lady and heard her denunciations, I thought I would rather be an earwig in an apple than her husband. When she went away I felt I could eat her, apple, earwig and all, and was grateful to her for giving me something about which to moralize.

Since she reached her home, I understand, she has scarcely done anything but talk about the Park, the Boulevards, and the Electric Light of La Plata. There is nothing like the female tongue to give "bold advertisement" to any place, thing, or undertaking. I should advise Dr. Dardo Rocha and Governor D'Amico to take my hint and give a huge "pic-nic" in the Park and invite all the ladies round about the metropolis. I will guarantee that their already great popularity will increase 50 per cent.

One day last week five ladies from Flores went through the process of conversion, the final portion of the ceremony taking place on the roof of the Government Palace, where they beheld the beautiful city lying beneath them, basking in the glorious sunshine, and smiling a golden smile of satisfaction at its own progress.

An altogether "too utterly utter" sceptic came up from Bahia Blanca two weeks ago, and was sent back crammed full of the charms of the place, and has since written to say that he wishes he had not come, because on recounting the pleasures of his visit, and the wonders he saw, to the people of the southern port, his veracity was, for the first time in his life, called in question.

Another well-known gentleman, and an unbeliever in La Plata and the Port, has recently been here. I once had a nearly serious tussle with him on the question of whether or not it was a mythical and mushroom city. He somewhat curtly told me he had read my "impressions," and that he wished he could believe I had written truthfully. Restraining my indignation, I merely told him to come and judge for himself. Last week this king of sceptics came, saw, and was answered. His majesty was pleased to record his opinion since his return to the capital, that any one visiting La Plata should undergo some process by which their heads might be increased in size, in order to take in all the marvels of the place and its surroundings. He is further reported to have said that an ordinary mortal's brain cannot realize what has been done in so short a time, and, without actually seeing it, no one would imagine that there was such a grand, picturesque, or beautiful park in the whole of the Republic, let alone so near to Buenos Aires! You can imagine my inclination to exult over this convert, but since he is quite sincere in his regrets for his former unbelief, I forgive him and pass on.

Day by day we have fresh importations of visitors, who come to inspect the city, because they begin to think they ought to come and see what is going on. Some sneak in and retire unrecognized. Others come openly, but look as if they were ashamed at not having come before.

It is not always convenient to act as "cicerones," but Mr. Puleston, Mr. Davis, Mr. Cassells and myself, having the privilege of being the first Englishmen who have all become residents in this new city, are always willing to do our best to point out its chief attractions and advantages, more especially to sceptics and unbelievers. With regard to your remark about the sewers and drains, and also the defective roadways, I may have still a word to say if you and my readers are still tolerant.

First Note. The belles of La Plata are very much excited in their minds concerning the paragraph anent their charms! Did the English resident allude to the native or the English ladies?

Verbal scrimmages have been going on ever since.

EDITOR'S TABLE.

The French packet Equateur sailed yesterday, taking the French mails and a large number of passengers. The English mail to 16th Oct. also arrived yesterday per Orion with £50,000 in gold for the Provincial Bank; we give a summary of the news in another column.

The National Government engineers left on Monday to survey the Pacific Railway from Chacabuco to Picassa or Orellanos, and returned yesterday. We hear, on good authority, that the line will in all probability be opened to the public as far as Picassa on the first of next month, which is grand news for the people living on the estancias out there. The works of this railway are now going ahead most rapidly; only 12 kiloms of earthworks short to join with Mercedes, San Luis, and 70 kilom. of rails. Thus, for the first of the new year, we may all book through from the Plaza Once to San Luis. Hurrah, for the locomotive!

Mr. John Clark, Concessionaire of the Pacific Railway, is at present sojourning in Montevideo.

The Revd. Mr. M'Neil will hold divine service next Sunday at 4 p.m. in the new rooms at Quilmes.

The gold, the gold for ever! Some lucky fellows arrived up from Santa Cruz at Patagones with lumps of gold, sold them, and now the news is that a Scotch expedition, with 400 horses, has started overland from Patagones for the new gold fields. We learn from the most respectable authority that there is now no longer doubt or question about the gold and its whereabouts.

Yesterday morning at 10 a.m. the marriage of Dr. Hanly with Miss Bergen took place at the Monserrat Church, in the presence of a large and fashionable crowd of friends. The marriage ceremony was performed by the Parish priest with all the church forms, which lent increased solemnity to the scene. The bride and bridegroom and padrinos kneeling at the altar steps during the wedding mass. Several of the Passionist fathers attended, and at the close of the ceremony the happy couple with the invited guests left for Mrs. Macken's, where the wedding breakfast was served. Dr. and Mrs. Hanly left last evening for Montevideo to spend the honey-moon which we wish the young couple a life long.

We said it: Bizzy won't abide by the Pope's decision in favour of Spain. So they say in Madrid; but they say such a lot of things there. It's rather funny to see England backing up Prince Alexander of Battenberg in the Conference, while the three Eagles are dead against him. What does it mean?

See another column for all particulars about the Regatta. It was the best ever held. The attendance of foreign and Argentine fashionables was the largest we have ever seen at the Tigre. The only drawback to the day's amusement was an accident at the Central Station, where a man fell under a moving train and was dreadfully injured. The station was packed with thousands of people at the moment, and the pitiful sight of the mutilated man had a most distressing effect on several ladies. Some fainted.

We'll all be blown to the d—ogs some day, if the authorities do not look sharp. Two more gas explosions occurred, in Calle Chacabuco, on Wednesday. Half the gas the Companies make escapes.

The Western Railway Board have ordered in London a sleeping car on the model of that used by the Czar of all the Russias. Who is going to sleep in it? What's the use of throwing money away in this way.

Bargossi is going to run 70 kilometers against a horse on Sunday next at Palermo. Another field day for the "oi polloi," and one of martyrdom for the poor tram horses, whose case, we are glad to see, the Zoophiles have taken up. Bargossi has refused a challenge from Chiquito de Eibar, the ball-player.

Merchants and others who keep up a correspondence with Europe, as a good many of them do, want to know why they should be charged double postage on the "alcance" for the French mail, which always leaves Montevideo 48 hours after leaving this port. It does seem absurd. This time the 'alcance' went at the same time as the mail itself, as there is no steamer for the Mount to-night; but when there is a steamer why close the mail 24 hours sooner than necessary? Surely it cannot be to secure the miserable double postage.

A 'ruidoso' action at law for a sum of 8,000 nats. lent at a gambling table is on the tapis.

The Tucuman Government is going to turn out the Corporation of that city, bag and baggage, as being utterly worthless. Hear! Hear! This is an excellent example to be followed.

"Sarmiento on La Plata" is worth reading, like everything, or almost everything, from his pen.

Hurrah! The extension of the Tucuman Railway to Rosario de la Frontera is open. The mineral baths at the latter place are famous; and we recommend shaky subscribers to try them.

The Biscayan ball-players made their debut on Wednesday in Plaza Euskara, and Mr Chiquito de Eibar got a jolly good licking.

Theodora to-night at the Politeama.

Some ruffian put two revolver cartridges on the tram line in Calle Bolivar on Wednesday night, and the first car exploded them. A masher passing by had a narrow escape of getting one of the bullets through his collar.

The *Tribuna* (We intend to drop *Nacional* till the weather cools) made the unpleasant announcement yesterday that the water supply of this city won't be at all up to the mark till a big tank, to cost a round million of nats, is put up in Calle Cordoba.

The Lord Mayor has decided to give the native paving-stone another chance, but on condition that it must be cut as neatly, and of the same size, as the English imported article.

Miss Beretervede won the grand Sevres vase, presented by the French Government, at the Kermesse. A young gentleman, M. Chapar, made her a present of the ticket. The Fair produced 8500 nats nett. A splendid result for the French Orphans.

The *Prensa* announces with justifiable glee that its efforts to knock the French wooden pavement contract on the head have been crowned with success, and the thing is dead and buried. We hope our colleague is not an enemy of all wooden pavement, but only of this French job. What the city requires is the Nettleship wooden pavement, as laid here (Calle Suipacha) and in London and Paris.

A naturalist has discovered that crows hold a solemn court at which offenders are tried—a sort of crow bar. It is said that no bird is now tried without caws, and that a true bill is indispensable in every case.

The Staff, which is now completed, consists of the following; and, as will be seen by the qualifications appended is, perhaps the best working-staff to be found in any private school, Native or Foreign, in the Argentine Republic.

EDITOR'S TABLE

(Continued from 1st page)

The disastrous news of the partial loss of the flax crop in this province has caused a deep impression. Some kind of "bicho" hitherto unknown in this country has ruined the crop, which was valued at 8½ million Nats. The loss in the seed sown is 600,000 Nats. Misfortunes never come singly; but in battalions—forced currency, low price of wool, loss of flax crop, the water in the sewers, and the Boulevard knocked on the head. Nevertheless, we believe the country will survive them all, especially the last.

A tournament is being got up to celebrate on the 19th, the founding of the city of La Plata. A colleague proposes that a certain number of officers and men from the army should take part in the jousts, as is the custom in Europe at such spectacles. We feel great pleasure in seconding the motion.

The banquet to Dr. Juarez Celman in the Colon Theatre on Tuesday night was a very grand affair. The candidate announced his programme, which we give in another column. More to the purpose was his declaration that he will try to put the National finances into order. They can't wait, doctor. Some body must begin the work before you make your inauguration speech, otherwise they will put themselves into order by a well and most unfavourably known process.

President Roca has pardoned the apothecary who shot his tailor eighteen months ago, because the poor devil had the temerity to ask for the amount of his bill. This ought to be a warning to all the tailors in town. For the future when hazardous customers—and all tailors should henceforward look on apothecaries as trebly hazardous customers——ask them for "tick," they should answer "No, Señor! I'll be shot if I do. It would be tic-doloroux for me."

The papers say that President Santos won £500 from Lord Dudley at the races which H. E. got up specially on his estancia at Colorado for his lordship's amusement. Lord D. is so rich he won't care much about the loss, but the experience may be valuable to him. "Quien sabe" if the news is true.

The Inspector of Schools in Corrientes was buried last week; the poor fellow did with a revolver bullet what Christian people are supposed to do with calumny against their neighbour—let it in at one ear and out at the other.

There are over 8000 colonists now in the Southern Chaco; including 551 at the Langworthy colony of Florencia.

Our excellent little colleague *El Arte* says that the Argentine stage has gone to pot, and gives a most amusing account of how the numerous poetic and dramatic geniuses to be found in the republic lose their head in a week, under the influence of the cruel jokes of the critics and 'cronistas' in comparing them to Corneille, Moliere, Cervantes etc. Not till they find out that the public willl neither read nor listen to their wonderful productions do they open their eyes to the hard fact that the Temple of Fame is closed to them.

Ant-destroying machines have been ordered for the public plazas and 'paseos.' It is about time.

Poor Massenet, the opera man, died on the voyage home to France, and was buried at sea. His heart broke under his great losses here this year. This is the second 'empresario' that has gone over to the majority within the past two months.

The attention of the Zoophiles is very badly wanted out near Almagro where the brickmakers treat in the most savage manner the troops of mares used to trample the mud. The sufferings of these wretched animals when the mud dries on them in thick layers, must be awful. They are also half-starved, and frequently drop dead by the roadside. A British subscriber saw two of them lying dead the other morning.

The only news we can find in a dozen of Tucuman papers is of a mild extension of the mild tramway line that enchanting city boasts of.

The *Prensa* says that when Mr Irigoyen, the Treasury clerk, learned on Tuesday that he had won the big prize in the Lottery, he ran home like a madman to tell his wife. Quite right. In good or evil fortune a man's first thought should be for his better-half and the little quarters.

Signor Ferrito has a very high opinion of his own works of art, so high that he wants the Lord Mayor to take no fewer than 150 copies of an album with views of public buildings taken by himself. He asks 15 nats a piece for the albums. Such an intensely cool proposal is quite refreshing this broiling weather.

Another of the perennial concerts for the sick poet Gervasio Mendez came off, or was to come off, on Wednesday night. We hope the result was not as usual.

The "Congeladora Argentina" will send its first cargo of 10,000 sheep to hungry London next month from Zarate. This iceified meat trade is increasing rapidly, and the Plate will soon cut out New Zealand and Australia. It's all moonshine to say that John Bull won't eat Plate mutton. He is eating it.

An imp of a newsboy ran round the whole course with Mrs Bargossi on Sunday, and was not a bit done up at the finish. While running he kept the mob round the course in roars by his coarse choff, which the police should have stopped, together with himself.

The San Luis papers say that the heat there is respectable. At what height is mercury considered to have attained respectablity?

The thieves and vagabonds of all kinds in Rosario are becoming more daring every day. Last week a clerk of Mr Gay's had a handful of pepper thrown in his eyes, and 288 nats snatched from his hand. A large horde of 'attorantes' also attacked the police with stones but were beaten.

The farewell Capital Lottery, on Christmas Eve, will have a big prize of 100,000 nats; price of ticket only 15 nats. There will be a rush to 'get on' for this last chance of making a fortune between night and morning, or rather between morning and night.

Good Morning Mr John Bull

Great Auction
OF
25 lots of Ground
In Barracas al Norte
Close to the Sola Works of the Southern Railway.
Divided by the following streets:—California, Santa Magdalena, Del Horno, and Presidente, this last one of 30 yards wide. Fronting the Glass Fabric, and just a stone throw from the Work Shops of the Railway where thousands of men are constantly at work, and who are in want of small houses for their families.
On Sunday the 15th inst.
At 3 p.m.
We commence the only Great Auction of the Season. Lots of all sizes as will be seen by the plan, which can be obtained at our office or on the grounds the day of the sale. No price is fixed to the ground, therefore everybody can obtain a piece at the lowest possible price.
English workmen and persons with small capital should take special notice of this sale as no other opportunity will offer itself for a long time, and as ground rizes in value so quickly that a delay of two month in buying indicates a loss of 50 per cent.
After this auction we will sell three lots in Calle Sola, between California and Presidente, at whatever price is offered.
For more details and other information apply to Baizan's office, Victoria 31, altos.

Important Notice.
I hereby advise the public that I have established a Gymnasium Institute at Calle Florida 406, where I also apply the MASSAGE SYSTEM as studied and practiced at Dr. KELLGREN'S well known institute in London.
This system has given the most surprising results in curing chest and lung complaints, and all maladies caused by the kidneys and joints, and in any way connected with the nervous system. Thus the celebrated SYSTEM of MASSAGE is recommended as a certain cure for rheumatism, asthma, undeveloped muscles, paralysis, disorders in the digestion and in the circulation of the blood, etc., etc.
I have also a special class for the development of the body and muscles.
The following is the time-table I have arranged for the application of the Massage System:
For Gentlemen 8 a.m. to 10 a.m. and 3 p.m. to 5 p.m.
For Ladies 12½ to 2 p.m.
Consultation hours—11.30 a.m. to 12.30.
Patients can also make arrangements for the application of the Massage System at their own residences.

Dysentery, Cholera Fever, Ague Coughs, Colds, &c.
Dr J. Collis Browne's Chlorodyne
(Ex Army Medical Staff)
IS THE ORIGINAL AND ONLY GENUINE.
CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.
The Public, therefore, are cautioned against using any other than
Dr J. Collis Browne's Chlorodyne.
REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.
CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer Toothache, Meningites, &c.
From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury, London.—"Dear Sir, we embrace this opportunity of congralulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."
Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."
CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

ON 'CHANGE

November 12th, 1885

Gold	49 o/o prem.
Cedulas F	79⅔
Cedulas G	84

The rising wave of the gold speculation swept the premium up to 49½ o/o to-day, and such was the violence of the rise that the whole market was astonished. It is not probable that the demands of the exchange market this morning were so unusually large as to account for this sudden flare-up in the speculation. There is no doubt that gold is very scarce and that the demands of takers influenced to no small degree the bullish feeling at the ring, but there are other causes, of a far more speculative nature and the subject of many spicy rumors.

The demand for cash gold was steady; $112,000 changed hands at 47.60 to 49, closing rate. About $60,000 were sold for Saturday at 47.40 to 48¼. Two hundred thousand dollars were sold for the end of the month; the market opened at 46.30 and closed at 47. Operations for the end of December embraced $230,000; rates opened at 44 and closed at 45. Over $600,000 were sold during official hours.

Fresh symptoms of weakness was visible in the Cedula market this morning, but the decline only affected Series G. The Series F is pretty firm at 79⅔. Operations in Series G embraced 116,000 for cash at 84¼ to 83¾, and 40,000 for 12th, 14th and 30th at 84.

The money market shews no signs of tightness in paper, in spite of the steady demands of farmers and of the fact that the State Banks are discounting little or nothing. Discounts are quoted at 6½ o/o. Gold is very scarce, and the demand in the hall is much larger than usual, so much so that it looks both speculative and artificial.

Exchange ruled rather dull, in view of the departure of the French packet which takes a heavy mail, especially in francs. The rate to-day was quoted at 47¼d to 47⅜d. There was a squeeze amongst takers to secure gold to pay for bills by the mail.

We see by to-day's telegrams from London that the Bank of England minimum has been raised to 3 o/o. This may be caused by the launching of the New South Wales loan for 5½ millions sterling.

The following remarks, which we extract from our esteemed colleague *La Prensa*, will be read with interest, as they deal with a topic that is the subject of much discussion at present on 'Change:—

"If the Mortgage Bank were a Joint-Stock Company; if its capital were merely its shares; if its Board had only in view the prosperity of the enterprise, based on a prudent valuation of properties mortgaged; the directors would not have granted in one hundred days applications to the amount of fifteen millions; nor would they have launched on the market ten millions of bonds in two months.

"The amount that the Board granted in one hundred days, should have sufficed to meet the wants of a twelve month. The liberal conduct of the Board prevents speculation in real estate in this city and in the rural districts. They are pushing the market to fictitious prices, and preparing a collapse that may drag down property to 25 per cent of its present value, ruin the Mortgage Bank and seriously affect the Provincial Bank.

"Not satisfied with a circulation of sixty million Cedulas; nor alarmed at the immediate effects of this hurried issue of Series G, effects visible in the prices paid for property, and in the quotations on 'Change; the Board decide to open a Series H of three million 6 per cent bonds, and a Series I of 20 million 8 per cent bonds.

"The Board appears determined to paperize the market completely; they are preparing the way, as in 1875, to another crisis; the ruin of 1876 to 1880 is still fresh in our minds and the Bank would have then succumbed but for the help of the Provincial Bank..."

Affairs in the Riachuelo were somewhat better to-day. A sharp breeze and a strong tide helped to clear the atmosphere and the river.

The news about the blight and disease in the linseed plantations is a most unpleasant announcement, and it is to be hoped that advices, reporting the bulk of the crop affected, are exaggerated. The plantations are attacked by a small insect, but it is not the dreaded 'isoca.' A farmer in Chivilcoy has lost 2000 squares of linseed by the havoc of the new insect.

The steamer Wilhelm arrived to-day from Rosario with 1800 bags of wheat.

The Platense steamer Pomona is expected back from Patagones to-morrow with the 3rd Cavalry regiment under Lieut. Col. Belisle.

The Houston line of steamers has now a weekly steamer leaving Liverpool for the R. Plate and a fortnightly one from Glasgow; two steamers of this line are loading frozen mutton cargoes in Boca. Exchange much offered, and we may say at all rates from 4.98 to 5.03, not much done, but exchange rising fast in Montevideo, very best paper on Paris offered at 5.40, equal to 5.04 here, and the demand felt to-day on the Bolsa for gold was to pay the Commercial Bank, Montevideo, and London and Brazilian Bank for bills they sent up and sold here; the gold goes to Montevideo.

Good news from Europe about wool, some better telegrams received and prices in Europe better; to-morrow the news will be reflected in the plazas. Some old wool from Patagones sold to-day at 55.

It was whispered on 'Change that £400,000 stg. in gold is coming out to the Government.

The shareholders of the Buenos Ayres Great Southern Railway Co. held their ordinary general meeting in London under the presidency of Mr F Parish. The Chairman moved the adoption of the report, stating that none but a very superficial observer could fail to recognise the satisfactory result of the year's working of the railway after studying the conditions in which it had made its 10 o/o dividend. In spite, therefore, of some forebodings and unfavourable criticisms, he would venture to repeat his conviction, which was shared in by the board, that their property was in as sound a condition that day as it had ever been. In the past year they had had to bear the strains of an additional mileage which had almost doubled the length of the railway. The gross receipts had been £921,000 as against £698,000, and they had a balance of £354,292. This large growth of traffic was the most satisfactory feature of the report, considering that the circumstances had been far from favourable, and that from circumstances explained at the half-yearly meeting they had lost during the year two months' receipts. The expenditure he regarded as the most unsatisfactory feature in the report, and the three principal causes of the increase had been the floods, the depreciated currency, and the new mileage, which had of course given less profit than the old. As regarded the prospects generally of the new districts, there were evident signs of progress. The extensions and various other works of the company were progressing rapidly to a conclusion. The general result of the capital account ought to satisfy the shareholders. When they had spent the whole £7,000,000, and the system was finished, their line would stand them in at about £8,200 or £8,300 a mile. They proposed to issue the balance of the Bahia Blanca capital, 40,000 shares of £10 each, which would be allotted at par, according to their holdings.—The motion was seconded by Mr. J Fair, who spoke of the satisfactory progress of the company in the past five years.—In reply to questions, the Chairman stated that a good part of the extraordinary expenses had arisen from unavoidable circumstances, but he thought they might rest satisfied that the return next year would be better.—The motion was unanimously adopted, and after the declaration of the dividend and the reappointment of the retiring directors and auditors, a resolution was passed authorizing the issue of the capital mentioned.

The Equateur left to-day with the following passengers:—

Eduarda Garcia de Mansilla, Mme Sophie Beauchard, Mr Vicente Gonzalez, Mr Leopard Anofriste, Mr T L Bauchong Mr T Carbonnier, O Bossu, Mlle Marie Delmas, Mr Henri Mofssch, Chales A de Baillet, Mme.
